

Four go on Adventure from Passau to Budapest

After a wonderful trip by boat and bike from Venice to Mantua last year we decided to try another similar trip from Passau in Germany to Budapest in Hungary. This meant that we would travel through 4 countries...Germany, Austria, Slovakia and Hungary. We met the boat in Passau where our bikes, 2 electric and 2 non-electric awaited the 4 of us. The boat was extremely comfortable and the meals provided were really excellent. Food for daily picnics was on hand each morning when rides were due. Detailed maps were provided each day and a guide talked us through them. We stopped at many small towns but the main stops were Bratislava, Budapest, Vienna and Passau. We opted for guided rides through these cities which all had good cycle paths. We did not cycle the whole route as the boat would sail down the Danube whilst we slept or sometimes whilst we idled the morning away by the pool. The boat carried many nationalities and the atmosphere throughout the trip was very friendly. We arranged the trip through Macs Adventures but there are other companies who do similar trips. Highly recommended.
